SIMMENTAL BULLS FOR SALE FROM QUEENSLAND & AROUND AUSTRALIA

The sale includes bulls born and raised right here in Queensland but also includes animals from high performing studs from other states. Knowing that commercial beef producers often travel Australia Wide to source new and different Simmental genetics (outside of those readily available in Queensland) the Queensland Simmental Bull Sale has brought those bulls right here to save time and travel costs.

VISION FOR THE SALE

The preferred place to buy and sell Simmental Bulls in Australia

In 2017 a number of Simmental Breeders saw the need for one Simmental Bull sale based close to the Fitzroy Basin in Queensland. The sale provides buyers the opportunity to purchase all of their Simmental Bulls at one time saving on both travel costs and time whilst also providing access to new and varied genetics.

Foundation vendors also identified that sale conditions needed to be extremely tight to ensure that only the highest quality of bulls are offered and that ongoing participation in the sale needed to be based on performance (selling average and clearance rates).

Initially most Simmental Studs in Queensland were invited to participate in the sale to sell bulls, promote their existing sales and promote the Simmental Breed in general. Ultimately for a variety of reasons the majority of these studs chose not to participate. In hindsight this proved of benefit to the sale as it allowed Australia Wide participation thereby increasing diversity of genetics offered to the astute bull buyer.

SALE LOCATION - CQLX

CENTRAL QUEENSLAND LIVESTOCK EXCHANGE, GRACEMERE

One modern facility combined with some of Australia's oldest Simmental Studs

The Queensland Simmental Bull Sale selected the Central Queensland Livestock Exchange (formerly known as the Gracemere Saleyards) as the preferred selling complex for the sale given its closeness to the Fitzroy Basin and it's modern facilities. The complex commenced operations in January 1953 and is situated 8 kms west of Rockhampton on the Capricorn Highway leading to the Central Highlands and the Central Western centres of Barcaldine, Blackall, Longreach and Winton. The facility has the capacity to sell over 5000 head of cattle each week at its Wednesday Prime/Store Sale and includes a café, function room, feedlot and dedicated spelling yards.

TOP X GRACEMERE BECOMES SELLING AGENT FOR THE QUEENSLAND SIMMENTAL BULL SALE IN 2024!

The Queensland Simmental Bull Sale welcomes TopX Gracemere as the official Selling Agent moving forward.

MARKET SUMMARY

Gavin Tickle TopX Gracemere

The last 3 years of the beef industry has been a rollercoaster to say the least with record highs and lows. Within the market over this period the one trend that has been consistent is the premium given to cross bred weaner/feeder cattle with 50% or greater Bos Taurus content (flatbacks).

It's common knowledge how well Brahman cows handle the challenges the Queensland environment throws at producers. For these reasons the Queensland Simmental Bull Sale presents a wonderful opportunity for producers to diversify and aim for a higher valued market without changing their base breeder herd.

WHAT SETS THIS SALE APART FROM OTHER SIMMENTAL BULL SALES

Brad Mullvihill TopX Gracemere

"It's a number of things", said Brad.

Firstly, the timing of the sale, being in late July the sale gives producers plenty of time to settle the bulls in at home before using them regardless of their joining period.

Secondly the sale terms and conditions, the unity from the vendors to meet and exceed these ensures the quality of the bulls presented are of an extremely high standard and gives buyers confident in the article they are purchasing.

Follow-up and support, TopX and the sale vendors are here to support buyers post their purchase to ensure the bulls get home safely and meet expectations.

Continuous improvement & listening to feedback from the Producer. In early 2024 the sale contacted all previous purchasers from the sale (that contact details are available for) seeking their feedback on previous sales and to identify suggested improvements to the sale. Each year the sale seeks to ensure the type of bull presented is suitable to the market and that the sale experience and post sale service is improved.

ABOUT TOP X GRACEMERE

The TopX Gracemere story begins back in 2015 when founding principal Brad Mulvihill established the franchise. Later that year Brad purchased and merged with the well known local agency RF Duncan & Co. Richard Thomson has been there with Brad as the business has grown and in 2022 another chapter began as Gavin Tickle joined the franchise. The TopX Motto is "Old Values, New Ways" and nothing rings truer than this to Brad and his team. RF Duncan & Co is the oldest registered agency in Australia, so TopX gives Brad, Gavin and Richard and the ability to honour the old values while leveraging off a vast network and modern technologies.

Brad Mulvihill is a highly experienced livestock and property agent coming from an agricultural background and holds a degree in Agricultural Management. Brad has over 15 years' experience selling at the Central Queensland Livestock Exchange (CQLX), Gracemere and with 20+ years in the Agency business Brad is committed to being known as a high quality livestock and property agent and acting as an integral part of our clients' business strategy.

Gavin Tickle joins Brad and the team bringing a new dimension to the TopX Gracemere franchise. Growing up on the land and accumulating over 20 years' experience in the agriculture industry, Gavin has gained valuable skills and experience that will support you as a client. Gavin's livestock industry knowledge extends to large scale property management and development, project management and fabrication and as a qualified plant mechanic – site equipment and machinery maintenance.

Supporting Brad and Gavin is Richard Thomson. Richard has 40+ years' experience as a livestock and property agent and delivers outstanding results for his clients while guiding and supporting the rest of the team particularly specialising in property sales. Richard is well known in, and around central Queensland and his knowledge of the area is second to none.

QUEENSLAND SIMMENTAL BULL SALE WELCOMES WELL KNOWN BARANA SIMMENTAL STUD AND UP AND COMING GLENANNA SIMMENTALS IN 2024.

2024 is set to be another exciting year for commercial beef producers with another 110 Simmental Bulls nominated for this years Queensland Simmental Bull Sale, 27 July at CQLX Gracemere.

This year the sale is excited to welcome on board Peter and Charmaine Cook from Barana Simmentals, Coolah New South Wales. Barana have sold Simmental Bulls commercially throughout Australia for decades with Barana genetics showing on countless stud pedigrees from both ends of the country and everywhere in between.

For those who have been using Simmentals in Central Queensland for ten years or more and have kept Simmental infused females it is quite possible those genetics include Barana Earlwood. Earlwoods male progeny made a big impact over a number of years having gone onto stud duties in a number of locations in Queensland.

To find out more about Barana's draft in this years sale contact Peter Cook on 0427 775 233.

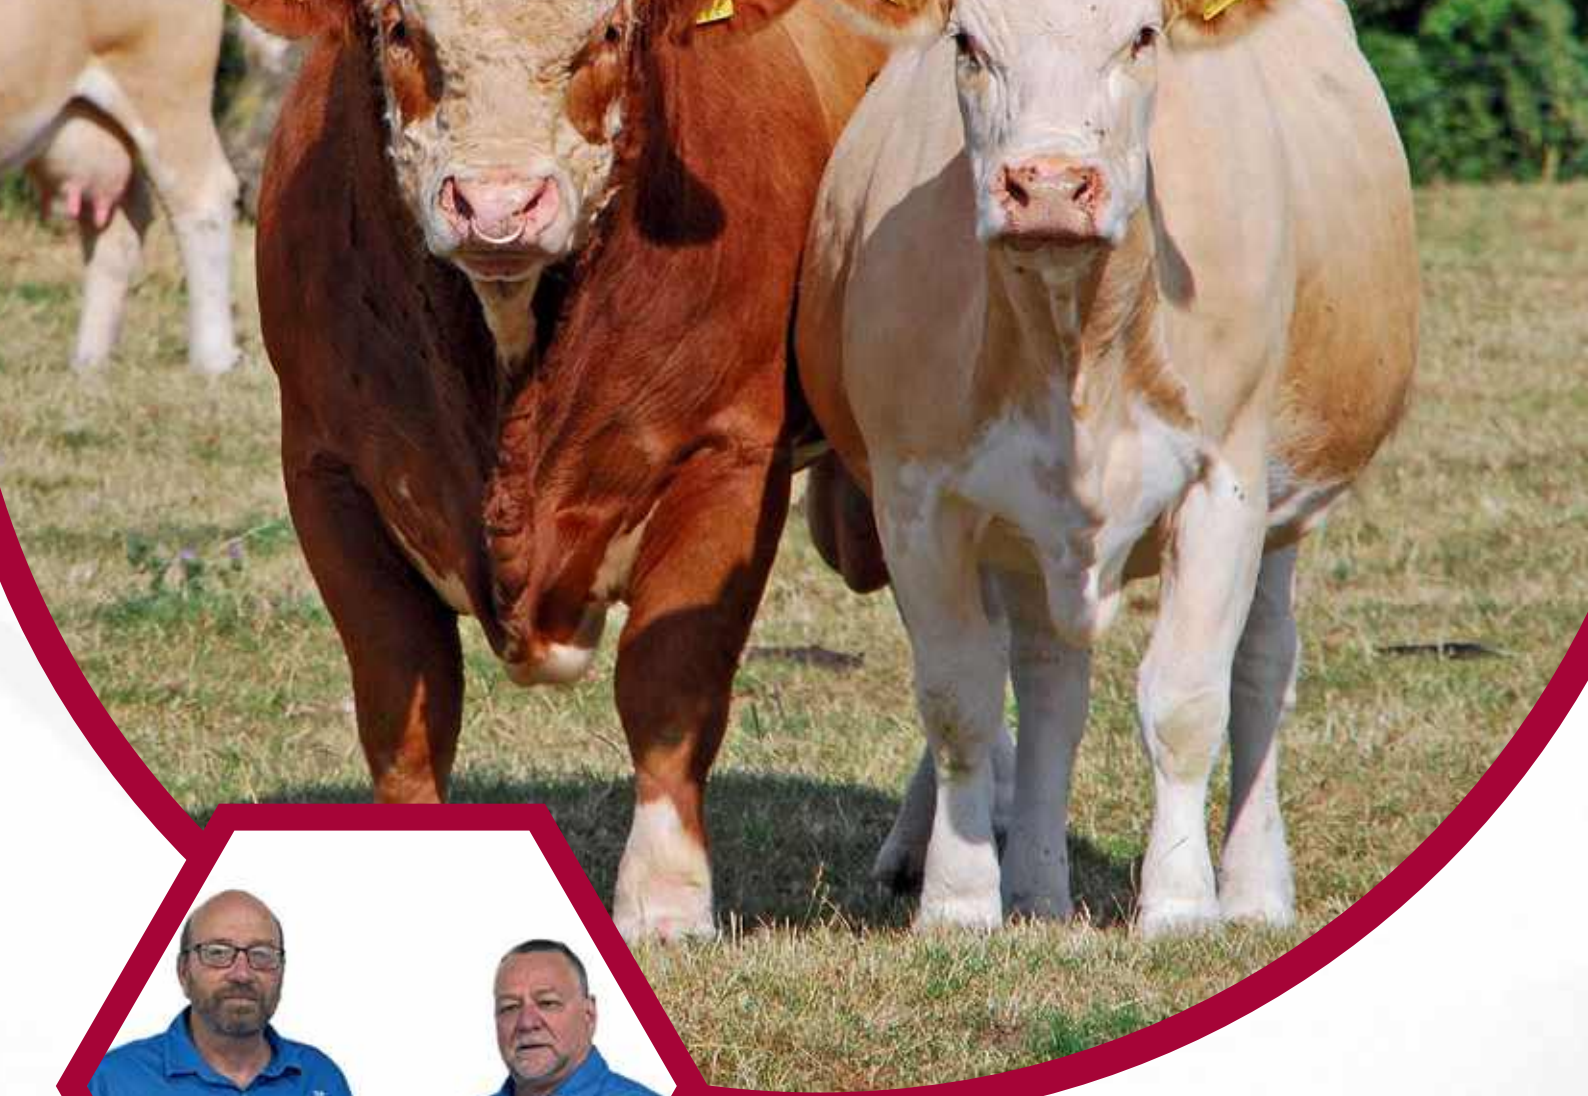

Sale vendors also welcome up and coming young breeders James and Maddie of Glenanna Simmentals in their own right for the first time this year.

Glenanna focus on the Traditional Simmental which has achieved such success around the globe and many of us are pleased to see an emerging stud focussing on the Traditional Simmental. Smart choices in genetics and animal selection have seen the couple rewarded over the last few years achieving close to top price or top price at a number of bull sales and always with a 100% clearance rate.

For those in attendance at last years Queensland Simmental Bull Sale you may also remember Glenanna Skippy (PP) who went to Streeter Grazing (Taroom) for a sale top price of \$30,000 with Glenanna averaging \$18,333 for their 3 bulls.

Be sure to view the Glenanna Facebook page which includes some great images of their cattle and to find out more contact James Hannah on 0488 595 992

BULL WALK 2024

As in previous years the bull walk will again occur on Sunday 28 July from 3pm at CQLX Gracemere.

This is a great opportunity for potential buyers and agents to have a really good look at all lots in large pens to:

- A.** Make a well informed assessment of structural correctness;
- B.** Have a close look at feet and step;
- C.** Observe the temperament of bulls;
- D.** Talk to vendors about their stud breeding program; and
- E.** Catch up with mates you havn't seen for a while over a beer.

SALE TERMS & CONDITIONS

➤ **Online bidding and viewing of lots will be available via Stock Live: www.stocklive.com.au**

➤ The Auction will be conducted under the Australian Livestock & Property Agents Association (ALPA) Livestock Auction Terms and Conditions Of Sale. These terms and conditions are displayed in the main front office of the CQLX selling complex. Compliance with sale terms and conditions is the responsibility of individual vendors.

To view these Terms and Conditions go to: <http://www.alpa.net.au/UserFiles/File/Documents/ALPA%20Livestock%20Terms%20and%20Conditions%20FEB%202017.pdf>

← **or scan this QR Code**

➤ Insurance Representatives will be in attendance on sale day and we recommend that buyers intending to insure their purchases do so from the fall of the hammer.

WFI Insurance is the preferred insurer for the sale and will be on site to arrange insurance for Bulls.

➤ **GUARANTEE:** All bulls come with a six month structure and fertility guarantee. In the case (supported by a Veterinarian Report) that a bull is found to be incapable of natural service or infertile, the selling stud vendor will replace the bull or provide a credit (less disposal proceeds) to the buyer for future purchases from the stud vendor. This condition is provided on the basis that the problem was not caused by injury or disease incurred post fall of the hammer at auction. The sale as a separate entity assumes no responsibility for individual bulls or vendors.

➤ **CATALOGUE DISCLAIMER:** All reasonable care has been taken by the vendors to ensure the information provided in the catalogue is correct. However the vendor and selling agents do not give any warranty as to errors or omissions. Prospective purchasers should satisfy themselves by inspection or otherwise as to the accuracy of the information provided.

FREIGHT

There are numerous freight options available at the selling complex on sale day including a number of vendors delivering bulls themselves. In 2021 sales bulls travelled to all parts of Queensland with some also heading south.

Gavin Tickle (TopX - Gracemere) will be co-ordinating freight on behalf of the sale and Gavin can be contacted on 0488 580 730 or in the TopX Office at CQLX on sale day.

BULL PREPARATION & ACCLIMATISATION

A large number of the bulls presented in the sale are from vendors based in Queensland and this can be referenced in the participating studs section. These studs include multiple Queensland vendors (some located in heavy tick country) and a number of interstate vendors who have completed the last stages of bull preparation in Queensland.

Strict instructions on feeding programs and desired weight have been provided to all vendors to ensure bulls are not over prepared and are ready to work. Given the timing of the sale many bulls will be spelled prior to a controlled joining later in the season whilst others simply go straight to work. The timing and conditions of the sale have been selected to suit Queensland Commercial Cattle producers many of which have been buying Simmental Bulls from southern states for years.

GRANGEBURN SIMMENTALS

CHARLES
STEWART
LIVESTOCK

Brodhi Carracher 0418 723 996 www.grangeburnsimmentals.com.au

VENDOR PROFILE: Grangeburn Simmentals

Brodhi Carracher
0418 723 996
brodhicarracher@hotmail.com
Glenelg Highway
Wannon VIC 3301

Registering the prefix in 2013, Brodhi Carracher set home base for Grangeburn Simmental in Victoria's south-west at Wannon where extremes in season occur from scorching dry summers to waterlogged green winters. These conditions test the cattle year-round as they need to perform in the good times and the poor times.

Based on almost 700ha of grazing country, Grangeburn is currently running a commercial cow/calf operation alongside the seedstock operation of 120 registered Simmental and SimAngus females. On top of this the sheep enterprise produces prime lambs. No stone has been left unturned in the quest for genetics to breed the 'right type' for clients in both the northern or southern hemispheres. If it fits it is incorporated into the herd.

Grangeburn are in the industry to produce top end bulls for the astute cattlemen with value for money. Breeding traits are focused on mobility, durability, easy fleshing, slick skinned and well pigmented cattle with maternal calving ease.

To allow the cream to rise to the top with the above traits in mind Grangeburn prefers bulls to be run as one contemporary group from birth through to sale with minimal grain in their diet. The cheapest feed to produce per kilogram of dry matter is grass, so that's what Grangeburn cattle get until the scorching summer heat when they are given access to silage and low grain content pellets.

LOT 1 GRANGEBURN TWELTH APOSTLE (P)

VENDOR: Grangeburn

ID:
ZEUPT063

DOB:
10/04/2022

S: CHAMPS BRAVO

SIRE: GRANGEBURN MASTERS PRIDE

D: WOONALLEE REGAL K13

S: BULLOCKHILLS GLADIATOR

DAM: WORMBETE KATE K21

D: WORMBETE KATE G6

COMMENTS

Kicking off the Grangeburn run with Twelfth Apostle, as big and rugged as the rocks but won't crumble. He's got a great type, good skin, bone and length all on a flawless structure. T63 has been good from birth, out of K21 who's in calf every year and produces good ones every time. Top 10% WW & YW.

BUYER: PRICE \$

LOT 2 GRANGEBURN TROPIC THUNDER (P)

VENDOR: Grangeburn

D: SIX CREEKS EBONY
S: WOONALLEE FLAME
DAM: JURALEY L007
D: WOONALLEE JULANI D127
COMMENTS

Another Quickdraw son, full traditional breeding but has thrown a closed face. Big long bull with a very sound structure. Out of the same dam as Spiderbait S35 who sold last year to York Cattle Co for \$16,000. Top 1% Milk.

BUYER: PRICE \$

LOT 6 GRANGEBURN TARANTULA (P)**VENDOR: Grangeburn****ID:**
ZEUPT132**DOB:**
9/04/2022**S:** WOONALLEE MUSCLEMAN
SIRE: GRANGEBURN QUICKDRAW**D:** SIX CREEKS EBONY**S:** GRANGEBURN MASTERS PRIDE**DAM: GRANGEBURN HEIDI Q144****D:** JURALEY L010**COMMENTS**

Homo polled bull with great shape and length to his carcass, look to Tarantula to add that natural do-ability. Top 20% Weaning Weight.

BUYER: PRICE \$

LOT 7 GRANGEBURN TONKA TRUCK (P)**VENDOR: Grangeburn****ID:**
ZEUPT103**DOB:**
31/08/2022**S:** STARWEST POL BLUEPRINT
SIRE: SUNNY VALLEY CANON 86E**D:** SUNNY VALLEY TRINITY 53Z**S:** BULLOCKHILLS GLADIATOR**DAM: WORMBETE KATE K21****D:** WORMBETE KATE G6**COMMENTS**

Built like a Tonka Truck through his younger years, this dark red bull has length to burn. A maternal brother to T63 up our order, the maternal strength shines though from his dam who's 10 year old and has been used in our donor pen more than once. Top 10% Weaning weight.

BUYER: PRICE \$

LOT 8 GRANGEBURN THE ROCK (P)**VENDOR: Grangeburn****ID:**
ZEUPT110**DOB:**
5/09/2022**S:** STARWEST POL BLUEPRINT
SIRE: SUNNY VALLEY CANON 86E**D:** SUNNY VALLEY TRINITY 53Z**S:** BULLOCKHILLS GLADIATOR**DAM: WORMBETE KATE K21****D:** WORMBETE KATE G6**COMMENTS**

Phenotype and data combine on The Rock, another son from proven donor K21. Built like one and due to breed more of himself he sits in the Top 1% for Rib Eye Area, Top 3% Carcass Weight, Top 4% Yield Grade and Top 10% for Weaning and Yearling Weights.

BUYER: PRICE \$

LOT 9 GRANGEBURN TRAVELLER (H)**VENDOR: Grangeburn****ID:**
ZEUPT107**DOB:**
2/09/2022**S:** FGAF FRENCH ATTACK 010C**SIRE: FSMB POL EDDY 3E****D:** FSMB MISS BRAVO 8A**S:** GIBBY'S ULTIMATE 29S**DAM: JB CDN FASHIONISTA 9024****D:** JB CDN FREYSIA 4079**COMMENTS**

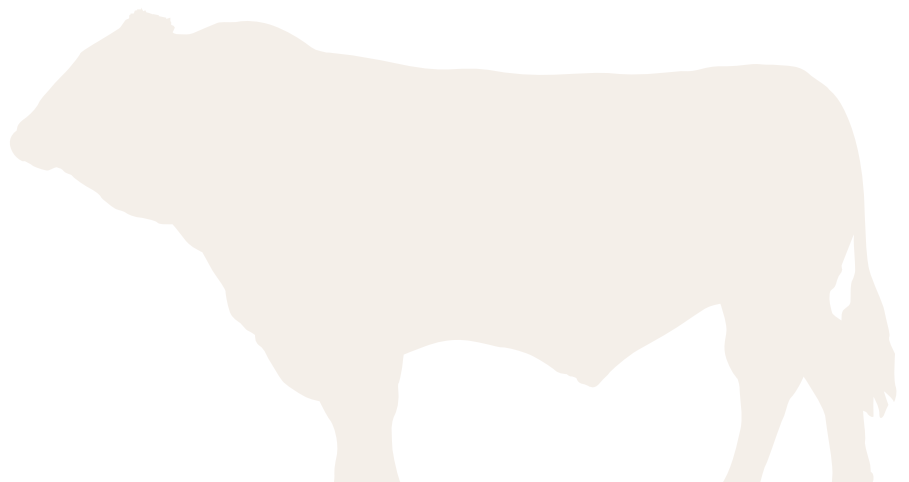

Built like a brick 'outhouse', rising 2 year old and chock full of red meat. Chasing an early maturity pattern then look on T107 to provide that for your herd. Top 1% Yield Grade, Top 10% Milk and Rib Eye Area.

BUYER: PRICE \$

LOT 10 GRANGEBURN TOURIST (P)**VENDOR: Grangeburn****ID:**
ZEUPT108**DOB:**
4/09/2022**S:** FGAF FRENCH ATTACK 010C**SIRE: FSMB POL EDDY 3E****D:** FSMB MISS BRAVO 8A**S:** GIBBY'S ULTIMATE 29S**DAM: JB CDN FASHIONISTA 9024****D:** JB CDN FREYSIA 4079**COMMENTS**

Added frame and mobility to this Tourist who's loving his stay in QLD. Coming from deep in the Bruketa cow herd he's got longevity on his side. Top 10% for Rib Eye Area, Stayability and Milk, Top 2% Yield Grade. Top 15% Birthweight.

BUYER: PRICE \$

VENDOR PROFILE: Jarravale Simmentals

Allan Jarrett
0427 331 204

jarravalepastoral@bigpond.com
45 Greenpigeon Road,
Horseshoe Creek, Kyogle, NSW 2474

Run by fifth generation cattle producers, Jarravale Simmentals aspire to produce excellent quality Simmental genetics that will produce more beef for farming operations to enhance their profitability. Jarravale Simmentals is located near Kyogle on the Far North Coast of NSW with a breeding herd of over 100 registered females. During the past decade Jarravale Simmentals has seen increasing demand for quality bulls from both their local market and the wider Simmental community.

The Jarravale breeding program is focused on consistent, high-performing female lines that are fertile, structurally correct and wean heavy calves. Jarravale believes that the cow herd is the driver of performance in the beef industry. We select for industry relevant traits including: calving ease, carcass weight, fat coverage and performance on grass and grain. To achieve our goals we have and continue to heavily use embryo transfer and artificial insemination. To continue to improve our cow herd we source the best sires we can find globally that are backed by strong female lines and display the traits that our commercial clients require to put more money in their back pocket.

Our commitment to sourcing leading global genetics is demonstrated by travelling to visit leading Simmental cattle studs in North America and selecting embryos and semen from the lines that we believe will suit our Australian conditions.

BARANA

“Breeding Cattle for the Commercially Minded since 1980”

ANNUAL ON PROPERTY BULL SALE

SIMMENTAL BULLS

SIMMENTAL FEMALES

PUREBRED COMMERCIAL SIMMENTAL FEMALES

Stud principal, Peter Cook has worked hard for over 40 years breeding Simmentals that reinforce Barana's long held reputation with both commercial & stud cattle producers. We have sold bulls nationwide and secured a solid client base over many decades.

Barana bulls are bred, raised & vaccinated to suit all Australian conditions with particular emphasis on meeting the requirements of northern cattle breeders.

We extend our sincere thanks to our valued clients for their continued & solid support.

Barana's Annual On-Farm Bull Sale is held on the first Friday in July & livestreamed via AuctionsPlus.

See our website and social media for details.

VENDOR PROFILE: Barana Simmentals

Peter Cook
0427 775 233
barana@bigpond.com
5111 Black Stump Way
Coolah NSW 2843

Barana Simmentals is a 2300 acre mixed farming & grazing property situated on the northwest slopes of NSW. Our soils are predominantly self-mulching black basalt with some red basalt. In a normal season an average of 24" annual rainfall is expected. Barana Simmentals was founded by Peter Cook in 1980 on traditional European & NZ bloodlines.

Barana has a stud herd including 220 registered & unregistered purebred Simmental females. At Barana great importance is placed on breeding for ease of calving, milk production & fertility and females must be able to rear a calf under natural conditions. Barana has endeavoured to breed bulls that produce steers that are quick growing with good carcass characteristics and the ability to finish.

At Barana stud sires are selected with a medium frame, soft, thick & well-muscled with plenty of capacity & a silky, fine, slick coat. Good feet, a strong muzzle & a sirey head are also very important attributes. Over the past 20 years breeding has also concentrated on poll genetics in the herd.

Barana has sold numerous bulls into every mainland state in Australia over the past four decades with many sold into Queensland. Barana bulls are suited to all Australian conditions with particular emphasis on meeting the requirements of northern cattle breeders.

VENDOR PROFILE: Daraabah Fleckvieh Simmentals

Bruce and Melinda McColl
0429 750 590
bruce@daraabah.com.au
7R Jones Creek Road
Dubbo NSW 2830

Daraabah Fleckvieh Simmental is a family operation running 120 breeders on properties at Dubbo and Merrygoen in Central West NSW. The stud was formed in 2011 after using Simmental and Fleckvieh cattle in our commercial herds since the mid 1980s. We found the South African genetics that came to Australia in the early 2000s matched our ideals. These genetics form the basis of the Daraabah herd.

Daraabah operates on a mantra of 'Our performance, your profit'. Our performance is based on integrity, effort, passion and progression. Your profit (gain, advantage, benefit) is our focus. In turn, that becomes our profit.

In the short period since 2011, we have strived to establish ourselves as producers of high quality, market suitable cattle. Our 2021 QSBS results and buyer feedback have been greatly encouraging and indicate that we are on the right track in producing the type of bulls that the market demands. Our bulls are successfully working in herds from Victoria, to Bourke, to Alpha, to Charters Towers and everywhere in-between.

VENDOR PROFILE: Tullayr Simmentals

George Wragge
 0410 014 754
 tullayr@gmail.com
 PO Box 281, Scone NSW 2337

Tullayr Simmentals is a family run Simmental Stud located just North of Scone in the Upper Hunter of NSW. As a family operation, George, his wife Georgia and parents Liz and Mike all contribute to the stud's success. Tullayr prides themselves on having honest cattle with outstanding temperaments suitable for a wide range of cattle markets.

Tullayr Simmentals consistently places bulls into local herds through paddock sales, whilst also selling successfully through multi-vendor bull sales into the Northern Rivers of NSW and Central Queensland cattle markets for close to a decade. Our inclusion in the Queensland Simmental bull sale further cements our commitment to the Queensland cattle market.

A commitment to sourcing leading genetics has led Tullayr to invest heavily in the cow herd through ET and AI programs and this has accelerated endeavours to deliver a product we are proud to stand behind. Our clients breeding objectives is at the forefront in our minds meaning an animal needs the ability to get about on a structurally sound set of feet and legs, be sleek coated and well pigmented, largely polled, moderately framed all with a quiet temperament. All calves are weighed at birth and along with continued objective measurements and strict physical selection. Buyers can be assured that Tullayr are presenting an animal that has had the guess work taken out if it.

VENDOR PROFILE: Yerwal Estate

Regan and Connie Burow
0419 817 669
regan@yerwalestate.com
Lawreys Road
NARACOORTE SA 5271

Yerwal Estate Simmental stud is a 600ha grazing property situated 45kms south west of Naracoorte in South Australia in 1963.

By the mid 80s Yerwal Estate was running 250 to 300 pure bred Simmental females and participating in an annual bull sale at Millicent. Yerwal saw great success in this sale, topping the average 4 out of 5 years. For a number of years Yerwal Estate has been selling bulls to many different parts of the country including the south-east of South Australia, Victoria, Central and Northern New South Wales, Northern South Australia, Northern Territory, Central Queensland and far Western Queensland. The stud has also sold embryos to central Queensland and has a good understanding of both the genetic and nutritional preparation requirements for cattle going into these climates.

Yerwal Estate aims to produce bulls that are sound, moderate framed, easy fleshing, athletic, soft and well pigmented. Yerwal Estate bulls are good footed, sound structured animals that will stand up on any soil type barring injury.

LOT 56 YERWAL EST TORNADO (P)

VENDOR: Yerwal Estate

ID:
AMOPT305

DOB:
12/04/2022

COMMENTS

Possibly one of the best sires that we have offered. T305 has impeccable temperament and near perfect phenotype. He's long, thick and well muscled. He ranks in the top 15% or better for most growth traits. Yerwal Estate to retain Semen and rate him highly for a stud sire.

VENDOR PROFILE: Glenanna Simmentals

James & Maddie Hannah
0488 595 992
jmhannah7219@gmail.com
259 Merrygoen Road
Merrygoen NSW 2831

Glenanna Simmentals is a family owned and run stud consisting of James, Maddie, and children Millie and Lucy Hannah, based in North West NSW, established in 2013, alongside family stud Daraabah Simmentals. Our herd started off with a select few dam lines which we have progressively evolved over the years to breed modern style animals to suit today's market.

We aim to breed traditional Simmentals with a modern twist at Glenanna. We select based on physical traits and genetic data. All our breeding females and stud sires have enhanced genetic data and parent verification. We provide the database with as much information as possible on each animal, including birth weights, calving ease, weaning weights, yearling weights, and scan data to ensure accuracy and reliability. This helps us select the traits needed for both stud and commercial producers.

In North West NSW, our herd mainly runs on native pastures, so we place strict selection pressures on functionality, performance, and adaptability. We believe in having quality dams behind our bulls, with emphasis on maternal abilities, growth, weight for age, and structural correctness. We also prioritize docile temperaments in our cattle, as our young children often work with and around the animals.

In the 10 years we have been operating, we have successfully sold bulls into most states of Australia from Western Australia to many areas within Queensland and NSW.

VENDOR PROFILE: Mount Mooney

MT MOONEY SIMMENTALS

Quentin and Renee Mooney
0438 011 800
renee@mtmooney.com.au
Tintinara, SA, 5266

Mt Mooney Simmentals was established in 2008 after trialling many different British & European cattle breeds in our commercial beef operation. Ultimately, we landed with the Simmental breed as it possessed not only the desired attributes for our commercial beef operation but also aligned with our desire to enter the stud breeding market.

In addition to its own stud breeding enterprise Mt Mooney currently runs 200 commercial beef cows on two properties in the upper south east of South Australia (Tintinara). This commercial focus has enabled Mount Mooney to produce Simmental Bulls that achieve exceptional carcass results.

Over time Mt Mooney has purchased both heifers and bulls from some of the leading Simmental studs in the country and have undertaken an extensive embryo transplant program which has already displayed some very promising results. These years of effort, hard work and genetic selection has meant that Mount Mooney now has the consistency and volume of bulls to expand nationally and we are pleased to be part of the Queensland Simmental Bull Sale in Central Queensland.

Bonnydale Black Simmentals is a family business built on hard work, patience and dedication coupled with an unwavering and passionate commitment to clients and the Australian beef industry. Our number one goal is to improve the profitability and sustainability of our customers businesses. We believe if we can achieve that through profit focused genetics and superior service, our customers will continue to support the Bonnydale program.

Bonnydale has a large pool of genetics working in varied climatic conditions – over 1000 registered and 1200 commercial females between our 2 herds in WA & QLD provides high selection pressure. This means that the 250 Bonnydale Bulls selected for sale each year are of extremely high quality. They combine excellent structure, softness with muscling, calving ease, do-ability with excellent temperament and superior genetic merit and predictability.

Each bull is offered for sale with parent verified pedigrees, genomic enhanced EPD's, free from genetic faults and comes with Bonnydale's unsurpassed after sales service guarantee. We DNA test every calf to deliver pedigree integrity and provide buyers with confidence in their selections.

The value offered by Bonnydale genetics continues to be endorsed by our satisfied clients.

Whether it be advising us of the terrific weight gain of their calves, excellent conception rates of their herd or the tremendous comments they receive from buyers. These endorsements motivate us to continue our pursuit of excellence in the product we deliver.

CAN'T MAKE IT TO THE SALE?

The Queensland Simmental Bull Sale understands that life is busy and some times it's hard to leave the farm. For that reason the sale has an attractive outside agent rebate meaning that the sale pays for your agent to attend the sale rather than you.

OUTSIDE AGENT TERMS

- The rebate is available to Livestock Agents who introduce buyers to the sale or physically attend the sale.
- **Rate:** Outside agents physically attending the sale. A rebate of 5% on lots purchased will be available for outside agents that attend the sale and sign off on behalf of their clients.
- For outside agents not attending sale but are settling clients/ purchasers accounts rebate is 3% on lots purchased.
- Please introduce clients/potential buyers in writing to TopX Gracemere, within 24 hours of sale date and settle accounts within 7 days of sales date
- This agreement is between TopX Gracemere and the Outside Rebate Agent. To participate in the outside agent rebate process please contact: Gavin Tickle, TopX Gracemere on 0488 580 730 or email gavin.tickle@topx.com.au.
